- 1 Do not charge in direct sunlight or humid environment.
- 2 Do not incinerate or short-circuit the cradle; otherwise, danger may occur.
- 3 Do not throw, drop, or strike the cradle. Doing so might damage the internal components and result in a malfunction.
- 4 Use only a dry, soft cloth to clean the terminal. Cleaning it with wet cloth or benzene/thinner/other volatile chemicals may deform and shorten the service life of the terminal's shell.
