Disclaimer

© 2023 Newland Europe BV. All rights reserved.

Please read the manual carefully before using the product and operate it according to the manual. It is advised that you keep this manual for future reference.

Do not disassemble the device or remove the seal label from the device; doing so will void the product warranty provided by Newland Europe BV.

All pictures in this manual are for reference only, and the actual product may differ.

Regarding product modification and update, Newland Europe BV reserves the right to make changes to any software or hardware to improve reliability, function, or design at any time without notice. The information contained herein is subject to change without prior notice.

The products depicted in this manual may include software copyrighted by Newland Europe BV or a third party. The user, corporation or individual shall not duplicate, in whole or in part, distribute, modify, decompile, disassemble, decode, reverse engineer, rent, transfer, or sublicense such software without prior written consent from the copyright holders.

This manual is copyrighted. No part of this publication may be reproduced, distributed, or used in any form without Newland Europe BV's written permission.

Risk Warning Regarding Unauthorized System Updates:

You should use the Newland-provided tool to update this product's system. Modifying system files by installing a third-party ROM system or using any cracking method may result in product malfunction or data loss and void your warranty.

Newland Europe BV reserves the right to make a final interpretation of the statement above.

Revision History

Version	Description	Date
V1.0.0	Initial release.	November 24th, 2025

Note: This document is applicable to Newland scanners that support **Digimarc®** decoding feature.

Digimarc®

Digimarc® is an invisible barcode embedded across the entire package surface, enabling fast, omnidirectional scanning. When used with a **Digimarc®**-enabled Newland scanner, it improves scanning efficiency, reduces the need to locate a visible barcode, and enhances packaging aesthetics.

Configure Digimarc®

Digimarc® On

To enable the scanner to read **Digimarc®** digital watermarks, please scan the following configuration barcode to activate both **Digimarc®** and traditional barcode decoding functions.

Digimarc® On

Demo Digimarc®: scan the Digimarc®-embedded image or any item embedded with **Digimarc®** barcode to demonstrate decoding functionality.

Scan Digimarc Logo with Enable Device

Digimarc® Off

To disable **Digimarc®** decoding and restore the default traditional barcode decoding mode, please scan the following configuration barcode.

Digimarc® Off

Troubleshooting Tip: If the Digimarc® function is not working, scan this configuration barcode to wipe out any previous scanner settings and then try again.

SCANNING MADE SIMPLE
